Each school district in the nation must appoint a “Homeless Education Liaison” who helps homeless students and families access supports and services. Sometimes more than one person carries out these responsibilities. The Liaison for your district may have changed since this brochure was published (August 2018). A list of all Homeless Education Liaisons for King County School Districts (2018-2019) is maintained by the Office of the Superintendent of Public Instruction (OSPI): www.k12.wa.us/HomelessEd/ContactList.aspx

We want to hear from you! Please tell us: How have you used this guide to assist students? What would improve it? Tell us about your experience as a student or parent, or a staff person working to support homeless students’ success in school. Write to speakup@homelessinfo.org or call the Coalition: (206) 204-8350.

© 2018 SEATTLE/KING COUNTY COALITION ON HOMELESSNESS
Students who are homeless have educational rights under the McKinney-Vento Act, an important federal law.

If you think a student might be eligible for support under the McKinney-Vento Act, speak with your Liaison!

Many children and families who are eligible for help do not consider themselves homeless.

When are students considered homeless? The McKinney-Vento Act protects the educational rights of homeless children and youth. The definition of homelessness under the Act includes, but is not limited to, children or youth in these circumstances or settings:

- **Children or youth** in shelters or transitional housing.
- **Children or youth** living in parks, public spaces, vehicles, abandoned buildings, or other places not meant for people to live.
- **Children or youth** sharing housing (doubled up or couch-surfing) due to loss of housing or economic hardship.
- **Children or youth** living in motels, hotels, trailer parks, or camp grounds due to lack of alternative accommodations.
- **Unaccompanied children or youth** (i.e. not in the physical custody of their parents or guardians).

Homeless students’ rights include:

- To remain enrolled in, and be transported to a student’s School of Origin when feasible, even if a student moves across or outside the district. (‘School of Origin’ means the school last attended when permanently housed, or the school in which the child or youth was last enrolled.)
- To be enrolled immediately (even without medical or school records) in the neighborhood school.
- To receive FREE breakfast and lunch in schools that serve both.
- To have barriers addressed so that they can participate in athletics, field trips, and after school activities (this could include having certain school fees waived). Parents or guardians should contact school staff for help.
- To get help with basic school supplies, including uniforms, shoes, textbooks, and notebooks. If a student’s family cannot afford required supplies, parents or guardians should contact school staff for help.
- To ask for more academic support if a student is struggling with classwork. Parents or guardians should contact school staff for assistance.
- To use the school district’s Dispute Resolution Process to appeal a school’s decision when there is a disagreement about school selection or enrollment (attending class and participating fully in school activities).

About the Coalition

The Seattle/King County Coalition on Homelessness is an independent county-wide coalition of housing and homeless service providers, advocates, and community groups. We encourage active collaboration among homeless service providers, school staff, parents, and students. Coalition members and volunteers help hundreds of homeless students each year through Project Cool for Back-to-School. We speak up for the smart policies, robust budgets, and strong partnerships needed to help and house our neighbors who are homeless.
